CABBAGE

Round, red cabbage
yielding up to 3
lb heads.

Red Acre

80 Days

ANNUAL806

CELERY

Produces long, thick stalks which are not brittle.

11-12" stalks are bright green and slow to pith.

Giant Pascal

100 - 110
Days

ANNUAL606

CUCUMBER

An open pollinated burpless cucumber that is nearly spineless and produces 12" fruit that is sweet, crunchy, and bitter free. Can be harvested at 5-6" for pickling and salads.

Beit Alpha

56 Days

ANNUAL606

CUCUMBER

AAS Winner. Compact container variety bears loads of sweet cukes that can be harvested small for gherkins or grown to 6" for slicing. Semi-bush plant, reaching a height of only 12" with a spread of 30". Good garden performance and disease resistance.

Pick a Bushel

45 Days

ANNUAL606

CUCUMBER

High yields of smooth, long, dark green slicing cukes. Fruits up to 8.5".

Slice More

63 Days

ANNUAL806

LETTUCE

Popular home garden loose leaf variety. Large, light green leaves with ruffled edges.

Black Seeded Simpson

45 Days

ANNUAL806

LETTUCE

A long time favorite with leaves that are juicy and crisp. Performs well in warm growing areas. Bibb type.

Buttercrunch

65 Days

ANNUAL806

Great Lakes 659

LETTUCE

Iceberg type lettuce with outstanding tip-burn resistance. Good in cool or warm conditions. Produces solid, large, dark green heads. Slow to bolt.

80 - 90
Days

ANNUAL806

LETTUCE

An assortment of colors, shapes, and textures.

Includes romaine, oak leaf, and curled types. 50-55 days for mature leaves or only 28 days for baby leaves.

Mesclun Baby Leaf

50 - 55
Days

ANNUAL806

LETTUCE

Excellent romaine type. Intense, dark green color and tall, erect habit.

Parris Island Cos

74 Days

ANNUAL806

PEPPER

F1 hybrid. A uniform green to red mid-season variety whose blocky fruits are very nearly square, measuring 4 1/2" top to bottom and side to side. The three to four lobed fruits are thick-walled, crisp and firm, even when matured fully red. Excellent disease resistance - bacterial spot races 1, 2, and 3, TMY, and PVY.

Cali Wonderful

72 - 77
Days

ANNUAL806

PEPPER

Very hot, thin-walled. The two cell fruits curl and twist.

Cayenne Long Thin

Length
4" - 6"

67 - 72
Days

Width
3/4"

ANNUAL806

PEPPER

This thick-walled and juicy dark green to red pepper produces a fiery hot, pungent flavor. The fruits are 3 x 1" and tapered. If the peppers are green at the end of the season you can pull up the entire plant and hang it in a dry spot to finish ripening the fruit.

Jalapeno M

Height
24" - 36"

75 Days

ANNUAL806

PEPPER

Extra early, this sweet and tender blocky pepper matures from green to crimson. Produces mostly three-lobed fruit with abundant and continuous fruiting. Good vigor and wall thickness. Its habit prevents sunscald. TMV resistant.

New Ace Hybrid

60 Days

ANNUAL806

SWISS CHARD

AAS Winner.
Beautiful rainbow-colored stalks light up landscapes or mixed containers as well as serving up tasty veggies. Mild flavor, tender green or bornzy leaves.

Bright Lights
