SOIL, MULCH, GRASS SEED & FERTILIZER

BM6HP3CF

BM6HP3.8

With higher perlite content, this version of our renowned BM6 series is designed to provide additional drainage and aeration.

Berger BM6 HP

ADVANTAGES

- Higher drainage capacity for crops demanding quicker dry-down periods and less water retention in the root environment.
- Forgiving mix.
- Reduces plant stress due to excess water.
- High air diffusion.
- Rapid root growth for healthy plants.
- Good particle-size distribution for uniform growth.

INGREDIENTS

- Premium selected coarse grade peat moss
- Coarse grade perlite
- Dolomitic and calcitic limestone
- Non-ionic wetting agent
- Standard fertilizer starter charge

BM8PRO3CF

BM8PRO3.8

With the addition of our professional grade composted peat moss, this mix is specifically designed to lengthen the dry-down period.

Berger BM8 Professional

ADVANTAGES

- Contains additional nutrients and beneficial micro-organisms.
- Higher water retention coupled with good air space.
- Improves water distribution within the container.
- Higher CEC for increased buffering capacity.
- Good for post-harvest environment (retailers & box stores).

INGREDIENTS

- Premium selected coarse grade peat moss
- Coarse grade perlite
- Composted peat moss
- Dolomitic and calcitic limestone
- Non-ionic wetting agent
- Standard fertilizer starter charge

PEATMOSS

3.8 cuft Compact Berger Sphagnum Peat Moss Professional

The most popular on the market, this all-purpose sphagnum peat moss can be used for soil conditioning or in the preparation of balanced growing mixes.

10225051 - 2 cuft
10225053 - 1 cuft

Coast of Maine Bar Harbor Blend Organic Potting Soil

Coast of Maine Organic Products Bar Harbor Blend Organic Potting Soil is a lightweight soil mixture made with salmon, blueberry, lobster and other composts, as well as calcium and chitin-rich lobster shells, sphagnum peat, perlite and kelp meal. It is dark brown in color and provides the perfect balance between water retention and drainage needed for healthy plants. It is OMRI listed for use in organic gardens.

10225081 - 2 cuft

Coast of Maine Castine Blend Organic Raised Bed Mix

Coast of Maine Organic Products Castine Blend Organic Raised Bed Mix is a rich and diverse soil for growing big and healthy vegetables, herbs and flowers. It is made with a mixture of manure compost, worm castings, lobster and kelp meals, mycorrhizae, greensand and biochar. It is ready to use straight out of the bag with no need for additional components or tilling. It is OMRI listed for use in organic gardens.

10225049 - 2 cuft

Coast of Maine Cobscook Blend Garden Soil

Coast of Maine Organic Products Cobscook Blend Garden Soil is made with a blend of salmon and blueberry compost, aged bark, sphagnum peat moss and horticultural limestone. It requires less frequent watering and works well with acid-loving plants like azaleas, rhododendrons, holly, pieris and blueberry bushes. It is permitted for use in the production of MOFGA certified organic crops.

10225045 - 1 cuft

Coast of Maine Quoddy Blend Lobster Compost

Coast of Maine Organic Products Quoddy Blend Lobster Compost is made with lobster shells, compost and sphagnum peat moss. It is a dark-brown, complex soil filled with everything your plants need for healthy growth. It drains well and is an ideal soil conditioner for existing beds that need reinvigorating. It is OMRI listed for use in organic gardens.

10225047 - 1 cuft

Coast of Maine Schoodic Blend Cow Manure Compost

Coast of Maine Organic Products Schoodic Blend Cow Manure Compost is a dark, rich soil made from carefully composted cow manure blended with sphagnum peat moss. The result is an all-natural, easy-to-use, all-purpose organic soil amendment that can be used to recondition poor garden soil or help start new plantings of trees and shrubs. It is OMRI listed for use in organic gardens.

SCOTTSPREHMUMUS
MANURE

0.75 cuft Scott's Premium Humus & Manure

**Jonathan Green Black Beauty All Grasses Sun
or Shade Seed, Mulch & Fertilizer**

Your all-in-one bare spot patching solution. This mixture repairs stubborn bare spots quickly and seamlessly blends into existing lawns. This mix contains 20% more grass seed and covers more bare spots than any other lawn patching mixture on the market. The seed establishment mulch in this product keeps the seedbed moist which ensures complete grass seed germination. The mulch will degrade into the soil within one month.

The grass seed in Black Beauty Lawn Repair germinates in 10 - 14 days.

**Jonathan Green Black Beauty All Grasses
Sun or Shade Grass Seed**

This combines our most elite Black Beauty tall fescue seed varieties with our best Kentucky bluegrass to fill in bare spots quickly and invigorate worn-out lawns. Black Beauty Ultra also contains premium perennial ryegrass for fast germination and wear tolerance in lawns that experience heavy traffic. The Black Beauty Ultra seed grows naturally dark-green turf and is most similar to the Black Beauty seed mixtures that sod growers purchase from us to grow high-quality sod within one year.

This seed germinates in 7 - 14 days.

Jonathan Green Black Beauty Heavy Duty Grass Seed

This contains our toughest and most durable turfgrass varieties. With an attractive, dark-green color and roots that grow up to 4-feet deep, this mix is perfect for backyards, sports fields, curb strips, or anywhere aggressive foot traffic from athletes, children, and pets occurs. This grass seed mixture excels on sports fields where uniform lawn texture is important, so soccer, football, and baseballs bounce true. Black Beauty® Heavy Traffic provides the wear tolerance and the uniform good looks that these athletic playing fields require. This seed germinates in 10 – 14 days.

7284490: 7 lb
7672371: 25 lb

Jonathan Green Fast Grow Mixed Sun or Shade Grass Seed

This is a rapidly establishing grass seed mixture, designed to fill in troubled areas in lawns or grow an entirely new lawn quickly. Fast Grow seed mixture contains annual ryegrass which is the fastest germinating grass seed variety. Lawns grown from Fast Grow can be over seeded with any Black Beauty Grass Seed Mixture to establish a thick, beautiful lawn that will persist for years to come.

Jonathan Green Black Beauty Mixed Partial Shade/Sun Grass Seed

This performs exceptionally well in either full sun or partial shade growing conditions. This mix is perfect for over seeding and will fill in bare spots quickly to improve the appearance of an entire lawn. Sun & Shade contains the four families of cool-season turfgrasses: turf-type tall fescues, Kentucky bluegrass, perennial ryegrass and fine fescue, making this our most versatile grass seed mixture.

711620: 50lbs
Overseeding — Seeds up to 43,560 sq. ft.
New Pastures — Seeds up to 21,780 sq. ft.

50lb Pasture Grass Mixture

This contains elite forage grasses that are palatable and easy for grazing animals to digest. This is the ideal grass seed mixture for paddocks and pastures. Jonathan Green's Pasture Mixture is the best choice for grazing horses and other livestock because these grasses are free of endophytes which have been known to cause illness in some grazing animals if the majority of their diet contains endophytic turfgrasses. This seed germinates 10-21 days.

Annual ryegrass, perennial ryegrass, orchardgrass, white clover and Kentucky bluegrass.

Jonathan Green Granules Grub and Insect Control

This protects lawns from insect damage from top to bottom. Grubs can destroy lawns by eating grass roots, especially soon after hatching when their appetite is at its peak.

This two-part premium formula contains Merit®, an insecticide that kills grubs deep down in the soil, where the lawn roots are growing. It also contains lambda-cyhalothrin to achieve excellent control of surface feeding insects such as ants, fleas, crickets, chinch bugs, earwigs, and ticks.

7521214:
5000 sq ft bag 18lb
7521602:
15000 sq ft bag 54lb

Jonathan Green Mag-I-Cal Organic Soil Food

This contains calcium carbonate in a completely soluble form that is immediately available to adjust soil pH upwards. Poor soil is often the problem in growing a great lawn and calcium is vital to many grass plant functions.

Lawns thrive in soil with pH levels between 6.2 and 7.0. When the pH level of the soil is below this range grass becomes light green, weeds persist, and fertilizer nutrients are not fully absorbed. It also contains humates to stimulate soil microbial life.

7271984: 5000 sq ft

Jonathan Green Green-Up Lawn Fertilizer For All Grasses 5000 sq ft

Seeding & Sodding has been specifically formulated to grow quicker and thicker grass roots which are essential for surviving the stresses of summer and winter. Our seeding and sodding fertilizer is rich in phosphorus which is a key component in root formation for the development of new seedlings. This product also contains humates that enhance the efficiency, availability, and exchange of plant nutrients to and from the soil.

7271166: 5000 sq ft
7521578: 15000 sq ft

Jonathan Green Green-Up Weed & Feed Lawn Fertilizer For All Grasses

This is a premium grade herbicide and lawn fertilizer combination which controls weeds while feeding the lawn. Weed & Feed is designed to promote lush green growth in lawns and control over 250 broadleaf weeds including dandelions, chickweed, clover, wild onions, thistle and poison ivy.

50 lb 10-10-10 Fertilizer 101010FERTILIZER

General all purpose fertilizer for flowers and vegetables that is easy to use for healthier plants with greener foliage and stronger roots.

50 lb 15-15-15 Fertilizer 151515FERTILIZER

Farm grade fertilizer for commercial use on corn, vegetables and forages.

40 lb Pulverized Garden Lime LIMEPULVERIZED

The primary purpose of lime is to neutralize soil acidity by raising the pH balance. Neutral soil allows plants, grass, and flowers to flourish. If your soil is too acidic, then your lawn/garden will not flourish. Lime supplies the calcium and magnesium to grow healthy plants and grass. Additionally, lime enhances the effectiveness of expensive fertilizers. Lime is environmentally safe, and 100% natural.

40 lb Pelletized Garden Lime LIMEPELLETIZED

Pelletized limestone offers you the best quality and value over pulverized and granular lime. Pellets are easy to spread with little dust. Water-activated pellets will break down into our finely pulverized limestone and begin working immediately after being exposed to moisture. Dolomitic lime adds calcium and magnesium, important nutrients missing from many fertilizers.
